SYLLABUS
INTEGRATION THEORY

2. **Teacher:** Alexander I. Bufetov, HB 444, x3965, Alexander.I.Bufetov-at-rice-dot-edu.

3. **Grading:** Grading consists of three aspects:
   a) homeworks — 40%
   b) tests — 20%
   c) midterms — 40%.

   Homeworks will be assigned every week. Students are allowed to solve the problems together, as long as each writes his solution individually. Grades are not curved, grades of different students are independent. There will also be a possibility to do an individual project for extra credit.

4. **Office hours:** Monday 5pm. It is also possible to arrange a meeting by appointment.
